

Light, Colour & Vision

Virtual CONFERENCE

Date: JUNE 20TH – 21ST, 2020

Venue: Zoom Conference Call

(Once registered you will receive the link invitation for the meeting)

BASIC 101 COURSE - By Simon Grbevski BOptom, FACBO, FCOVD, FCSO.

You may have heard syntonics mentioned at a number of behavioural conferences, especially those of the Neuro-Optometric Rehabilitation Association, and now you have the opportunity to learn about it and immediately implement it in your practice.

We would like to invite you to come and learn about this very powerful optometric light therapy method.

The Basic 101 Course will comprise of two days. Some of the topics covered will include history of syntonics, light as part of the electromagnetic spectrum, light and the neurophysiology as well as colour and its influence on vision, colour field mapping. From this you can diagnose and develop treatment plans catered to the needs of the individual. More specifically we will cover:

1. Both practical education and theoretical knowledge including understanding the history of Optometric Phototherapy as well as the basic concepts
2. The anatomy and neurology of the nonvisual forming pathways
3. Optometric tests required for the diagnosis followed by the treatment protocols, as well as sample case study presentations
4. The four basic syndromes and their treatment protocols. These will provide treatment for 80% of your patients
5. How to incorporate syntonics into your vision therapy programs and practice management
6. Ensuring you will have the information to start syntonics therapy in your practice as soon as possible

7. Presenting the latest research in a unique way
8. Photobiomodulation; the impact of light on the physiology of the body and responses that can be made
9. How Chronobiology, the study of environmental or specific lighting has profound biological effects on our patients
10. About low level laser therapy, the new medicine, its use in pain management and dry macular degeneration
11. Demonstrations, workshops and case studies on the impact of syntonics

Over 200 optometrists have already completed this course in Australia and New Zealand. All attendees have claimed this Basic 101 Course is extremely unique and particularly interesting regardless of whether or not they have implemented syntonics into their therapy programs.

E-BOOK copy of the Black Book will be provided to new Optometrist attendees!

ACS Conference Program

BASIC 101 COURSE

Sat 20th – Sun 21st June, 2020

Zoom LiveChat

Saturday 20th June – Basic 101 Course – Day 1 (15 min breaks)

9:00 – 10:00am	Emerging concepts in Neurology and Biophotomodulation (History of Colour therapy)
10:15 – 10:30am	Morning coffee break
10:30 – 12:30pm	The Theory of Syntonic Phototherapy – ANS, Optometric Testing
12:30 – 1:30pm	Lunch
1:30 – 2:45pm	Alpha Omega Pupils with Lab
2:45 – 3:00pm	Afternoon coffee break
3:00 – 4:30pm	Introduction to Syntonic Syndromes
4:30pm	Examination

Sunday 21st June – Basic 101 Course – Day 2 (half an hour breaks)

9:00 – 10:30am	Functional Visual Fields in Optometric Syntonic Phototherapy
10:30 – 11:00am	Morning coffee break
11:00 – 12:00pm	Case studies
12:00 – 1:00pm	Lunch
1:00 – 2:30pm	Hands on Clinic for Visual fields
2:30 – 3:00pm	Afternoon coffee break
3:00 – 4:00pm	Syntonics Practice Management
4:00 – 5:00pm	Examination & Closing Remarks

For Further information contact: Melanie Woodhouse

syntoniccollegeaustralia@gmail.com

To apply for Membership to the Australian College of Syntonics:

1. Please complete the following details.
2. Please make your payment to the college using the details at bottom of page.
3. Email both your bank payment receipt & this form to syntonicscollegeaustralia@gmail.com

Membership entitles you to the following.

- Membership places you on an international directory of Syntonists
- Journal from the USA College of Syntonic Optometry
- Email newsletters
- Membership to the USA College of Syntonic Optometry as well as Australia
- Member rates for conferences in Australia and the USA
- Access to video library of the syntonic conferences from Australia and USA
- Link to Syntonics Chat Group on completion of Basic Syntonics Course 101
- Mentor access

PAYMENT DETAILS

Please make payment by ***Direct Deposit*** -

Membership fees are AUD \$195

Basic 101 Course fees are AUD \$600

Basic Course Vision Therapist fees are AUD \$395 (**therapists only**)

Basic 101 Course fees are AUD \$850 (**non-members**)

Therapists must be enrolled with the optometrist who is doing the 101 or have proof that they are employed by the optometrist who has completed the Basic 101 Course.

***Special Offer* Basic 101 Course Refresher AUD \$395**

(Only eligible if you have already done the course before)
